

# Bikrant malla

WEB DEVELOPER

Hard-working individual with proficiency in HTML, JavaScript, and CSS, as well as strong ability to communicate and work in a team effectively seeks to apply for the position of Intern Front-end Developer.

## EDUCATION

### Bachelor of Computer Application

Veer Bahadur Singh Purnvanchal University

2017 - 2019

## WORK EXPERIENCE

### Truenary Solution

August 2022 - Present

Web Developer

- Developed and maintained responsive websites and web applications for clients
- Collaborated with designers and project managers to create user-friendly interfaces and engaging user experiences.
- Implemented front-end functionalities using HTML, CSS, JavaScript, and frameworks such as React and Vue.
- Contributed significantly to Zlinky, a productivity tool aimed at improving bookmarking and organizing screenshots/images. Played a key role in developing and maintaining both the Zlinky website and browser extension.
- Contributed to Abra, a flexible platform designed for housing associations and condominiums. Involved in developing and maintaining the platform, which integrates security, safety, and smart features such as leak protection, fire alarm systems, smart door locks etc.
- Contributed to the development of the DecisionMentor website, a Multi-Criteria Decision Making application designed to simplify complex decision-making processes for individuals, both in public and private decision.

## PROJECTS

### Global Explorer

Created a website where you can easily find and explore information about different countries. You can search for specific countries, filter them by region, and see detailed pages for each country. Plus, there's an option to switch between light and dark color schemes for your convenience.

### CryptoMarket

Developed an app for tracking cryptocurrency prices and related data, incorporating the CoinCap API and Chart JS for each cryptocurrency. Enhanced functionality by implementing features such as a Watchlist, allowing users to monitor their favorite cryptocurrencies easily
